

High Performance

- Scales to handle high volume transactions for data intensive applications
- Supports low and high speed wired and wireless networks

Easy Installation

- Requires one IP and one TCP port
- Supports Proxy Firewalls

Certified Terminals

- Motorola MC35, MC70, MC75, MC9090
- Intermec CN3
- iMate JAMin, JasJAM, JAMA, Ultimate
- HTC P3600i, TyTN, TyTN II, Diamond
- MWG/O2 XDA Flame, ATOM
- HP iPAQ HX Series
- Opticon HI9 imager
- ASUS M530W SmartPhone
- TDS Nomad
- Mobile Compia M3

Embedded Scripts

Fast...

All messages sent real-time.
Real-time compression to reduce costs & time
High performance embedded database

Dependable...

Robust, networking and connectivity
Guaranteed message delivery
All transactions fully logged

Extensive Scripting...

Easy to learn, dynamic scripting language
Widely adopted, designed to be powerful
Plug-ins for external connectivity

Simple to Implement & Deploy...

Lightweight, one time client install
All applications & scripts reside on server
No external or third party dependencies

Secure...

PKI based 2048 bit encryption
Embedded VPN that's firewall friendly
Database and memory AES 256 bit encrypted

Features...

Unlimited users & workgroups
Predefined text
Broadcast messages, images & documents
Over 4,000 simultaneous users per server
Remote device diagnostics for easy support
Remote device wakeups & alerts
